

## ODP 012 - 018 - 025 LIQUIDO

### DOSING UNIT FOR LIQUID QUICK SETTING CHEMICAL ADMIXTURES

OCMER has developed a complete range of dosing units for liquid concrete's chemical admixtures, typically quick setting accelerators.

The main characteristics of OCMER dosing units is related to their simplicity.

A peristaltic dosing pump driven from a moto-inverter ensure the accuracy of the dosage and allows to regulate at will and maintain constant the required output.

A digital display on the electric control panel indicate the settled value expressed in litres/h.

The range is composed of three models able to cover all the outputs between 30 and 1.700 litres/h

### SPECIALIZED TECHNICAL ADVICE

We offer specialized technical consultancy on specific projects, helping you find the solution best suited to your needs.

### CUSTOMIZATION

We actively collaborate to propose you tailor-made solutions through specially designed products or by modifying existing ones.

## ODP 012 - 018 - 025 LIQUIDO

Modello	Weight Kg	Output range litres/h	Installed power KW
ODP-012 LIQUIDO	85	from 30 to 240 at 7,5 bars	0,75
ODP-018 LIQUIDO	136	from 80 to 700 at 10 bars	1,5
ODP-025 LIQUIDO	195	from 200 to 1.700 at 15 bars	1,5
